ABOUT US

Shree Siddhivinayak Enterprises (SSV), located in Indore, Madhya Pradesh, is engaged in supplying and applying high-quality construction chemicals and waterproofing materials. We work as construction chemical consultants, authorized distributors, and authorized applicators of leading construction chemical companies.

The products offered by us are widely appreciated in the market for their optimum quality, longer shelf life, excellent water resistance, smooth texture, easy application, low maintenance, and competitive pricing.

We deliver complete construction chemical and waterproofing solutions for all types of construction projects such as residential projects, government projects, industrial projects, housing projects, high-rise buildings, bungalows, individual houses, commercial projects, roads, highways, and bridges.

With a wide range of products in our portfolio, we serve as a one-stop solution for construction chemicals. Active in the market since 2002, we have successfully completed thousands of projects. Our strength lies in our highly qualified technical team, which ensures excellent customer support. Our experts interact regularly with clients to understand their exact requirements and provide the most suitable solutions, resulting in high customer satisfaction across the industry.

OUR VALUES

- Quality
- Integrity
- Technical Excellence
- Reliability
- Customer Commitment

OUR MISSION

To provide complete construction chemical and waterproofing solutions under one roof, combining technical expertise, quality products, and reliable execution to ensure long-term structural protection.

OUR VISION

To be the most trusted name in construction chemicals and waterproofing, delivering durable, innovative, and high-performance solutions that strengthen every structure we serve.

OUR STRENGTHS

- Free technical advice, tele-consultation, video consultation, and free site visits
- Free sampling by waterproofing experts and civil engineers
- Diagnosis using modern tools with specification support
- Leakage detection using thermal imaging technology
- Application support using best-in-class instruments
- Strong after-sales service and mix design support
- All major waterproofing brands available under one roof
- Company engineers available for on-site technical support.
